

# LIMES international

Corporate story

WHEN THE WORLD IS YOUR PLAYING FIELD

# WHEN THE WORLD IS YOUR PLAYING FIELD

Today's internationally oriented world offers talented, ambitious people and dynamic organisations unprecedented possibilities. However, in addition to challenges and opportunities, working across countries and cultures introduces foreign legislation and regulations. That's why integrated, specialised fiscal-legal support is essential to people and companies aiming to work successfully across national borders. What's more, relying on the right knowledge and expertise also adds value when it comes to realising your international ambitions.

## OVER THREE DECADES OF EXPERIENCE

Over thirty years ago, LIMES international recognised a growing need for integrated services in the areas of corporate tax, employee tax and social security. Since then, we have been active in this challenging and exciting field.

Our advisers offer valuable international expertise and can rely on many years of experience. They feel perfectly at home in their own field of knowledge as well as at our head office in Valkenburg ZH, near Leiden, on the Oude Rijn (Old Rhine) river. 2000 years ago, the northern border of the Roman Empire (named 'limes' - Latin for 'border' - at the time) was located right here.

## INTEGRATED ONE-STOP-SHOP CONSULTING

Growing complexity in (international) legislation and regulation means our clients are increasingly in need of truly integrated services. The nature of today's issues means that our service offering no longer rigidly separates corporate tax, employee tax, social security, VAT & customs, legal and immigration.

As a pragmatic partner, we are proud to master each of these disciplines and provide them from a single location. Our goal is to unburden and facilitate you as much as possible, so you can focus on what you do best: conducting business at an international level and making the world your playing field.

In order to obtain the best results, we like to sit down with clients. Ask critical questions. Explore new possibilities. And find the questions behind your questions. We set ourselves apart precisely by finding the answers, ensuring you make a difference to your employees, clients and relations.

More and more talented, ambitious people and dynamic organisations are discovering LIMES international as a one-stop-shop for international services. We don't just advise on cross-border activities, but are happy to implement our advice together with you.

## AT HOME AND ABROAD

As a truly international player, LIMES international is affiliated with Geneva Group International (GGI) and EuRA. Membership of these leading organisations provides us – and, by extension, you – with access to valuable local knowledge and expertise in more than 120 countries. We also have an extensive network of international service providers in every conceivable area.

Every day, our consultants and their international colleagues work intensively on clients' international issues. Their combined knowledge and expertise enable us to optimally assist you in every country with the local knowledge, contacts and support your specific situation requires at any given moment.

## KNOWLEDGE AS ADDED VALUE

For LIMES professionals, specialised knowledge is a lifeline. It is one of the pillars on which our organisation has been built. We continuously invest in this area, on which we focus intensively on a daily basis. And of course, we don't aim to keep all this valuable knowledge to ourselves.

Through our LIMES academy, we share our know-how with clients and relations, during seminars, workshops and in-house presentations. This interaction always brings new insights and challenges. It ensures continuous alignment of knowledge with daily practice - and vice versa. This way of working does not only keep our work challenging, it also provides greater value for our clients. We would be happy to work for you.

*If you consider the world your playing field, our dedicated advisers are ready to support your international issues.*
